## Atlantic Steamer Fire Company No. 1 Talks About Their Company's Grant

Evan Bower (front row, second from left) of The B&G Group together with Glenn Skryneckni (front row, third from right) of Fireman's Fund present grant check to Bob Wallace (front row, third from left), President of the Atlantic Steamer Fire Co., and Chief Bagan. Craig Seitz (far left), Mark Saliture (second from right) and Anthony Coulianidis (far right), all from The B&G Group, also participate in the ceremony as well as several members of the Atlantic Steamer Fire Co.

### By **Bob Bagan**, Fire Chief, Atlantic Steamer Fire Company No. 1

It's the most important equipment a firefighter needs when responding to an emergency and now our firefighters are receiving a number of the newest, most effective models thanks to The B&G Group, Inc. and Fireman's Fund Insurance Company.

The B & G Group and Fireman's Fund have partnered to award an \$8,865 grant to our fire company for seven sets of "turnout gear," the protective, fire-resistant clothing that firefighters wear when responding to incidents like fires or major vehicle crashes. The clothing protects firefighters from exposure to chemicals, heat or flames and also includes a helmet with a face shield to help fend off flying debris.

With an influx of new members, it's essential our fire company replaces old, outdated turnout gear with newer models that meet National Fire Protection Association (NFPA) regulations. The gear will allow our new members to do their jobs more effectively and efficiently, helping us to better protect the community.

The grant was made through the Fireman's Fund Heritage® program, Fireman's Fund Insurance Company's social mission to support firefighters for safer communities. Under the program, agents across the country who sell Fireman's Fund products, like The B&G Group, have the opportunity

---

The grant was used to purchase seven sets of turnout gear.

---

to direct grants to fire departments for needed equipment, training and community education.

I want to thank The B&G Group and Fireman's Fund for recognizing an essential need of our fire company.
